ECOFOR is natural and cultural heritage resource management company with over 60 employees specializing in the aquatic, terrestrial and social sciences. Our primary focus has been conducting reliable, cost effective and professional consulting support for our clients. We support our clients needs for baseline inventories, environmental impact assessments, environmental management, socio economic and cultural resource heritage as they pertain to the permitting of development projects throughout western Canada. Ecofor was founded in 1996 and has steadily grown to meet the demands of our clients, who include private industry, government agencies, First Nations organizations and communities.

Serves Community: Fort St James
